

Pi (A Pie?)

Commissioned by Opera North

Note about Voices A (picture-people) and Voices B (number-people):

If you hear the word 'pi(e)' which springs to mind first? The thought of the never-ending number pi or the image of a delicious mouth-watering pie? We think that number-people are as excited about numbers as picture-people are about images and that is why we have written a song for number-people and picture-people to sing together. And if you are a number-picture person you might like to try both lines at the same time: good luck! EH & SD

Repeat as many times as possible:

First Time: Fast

Second Time: Faster

nth Time: As fast as you can!
